Claims 19-22 and 24-27 are allowable because none of the prior art discloses a microstructure for steering light, the microstructure comprising an electrode disposed to provide an electrostatic force; a sensing configuration having a first and a second region formed within the substrate, and in the combination as claimed.

Art Unit: 2858

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
